FDA Approves New Use of SPRAVATO™ (esketamine) for Major Depressive Disorder and Acute Suicidal Behavior

Spravato is an FDA-approved nasal spray medication for treatment-resistant depression. With minimal side effects and used in combination with therapy, oral antidepressants, and/or TMS, Spravato provides rapid relief of depressive or suicidal symptoms. Spravato is self-administered in the office and is covered by most insurance.

To learn more, talk to your psychiatric provider, **click**, or schedule a consultation.
